WINSTAT BF-X4MB 2-FAN IONIZER

BF-X4MB BLOWER

The Winstat BF-X4MB Wide Coverage Air Ionizer's light-weight design makes this blower the ideal choice for ionization at the workbench, or directly above the worksurface. The blower will help remove static in a wide range of applications especially in the Electronics and Medical Device Manufacturing Industry. With its excellent ion balance and fast decay rates, the BF-X4MB ionizer is the perfect tool to use when process concerns should arise due to static charges.

Features include:

- Single-touch operation to remove louver screen and discharging needles for easy maintenance
- HDC-AC Technology - ensures long-term stability performance
- Excellent Ion Balance
- Wide Coverage area (16" wide)
- Low Speed (50CFM)
High Speed (113CFM) x 2 fans
- HV Alarm function available for abnormal conditions

Specifications: BF-X4MB

Type:	Winstat 2-fan ionizer	Accessories:	AC Adaptor, Signal output cable cleaning brush, Manual
Input Voltage	DC24V; AC adaptor 100-240v	Weight:	4.0 lb w/ bracket
Ion Balance:	below +/- 10V (at 12" distance)	Dimensions:	width 14.5 in. height 6.25 in. depth 3 in.
Decay Performance:	1.5 seconds (distance 12" w/ maximum air speed)		
Output Voltage:	+/- 7,500vp-p		
Sound Level:	62dbA (at 3ft distance)		
Ambient Temp.:	0 - 40C (104F)
